

On Friday September 16<sup>th</sup>, the Nebraska Regional Programs for Students who are Deaf or Hard of Hearing welcomed 80 students for a day in York, NE at the “Wessels Living History Farm.” The Central Nebraska Western Partnership boasted 41 students in attendance, with 12 students attending directly from ESU 9 area schools. Several ESU 9 staff attended the day to assist students from across the state. Students learned about the buildings at the Wessels farm, heard stories about farm life from the past, and even got to play games such as “catch the bacon” and “tug-of-war.” Students were able to pick their own corn from the field and attempt various corn-shucking techniques. Students were also able to interact with a variety of farm animals. One of the highlights of the student’s trip was having the opportunity to guess what various old kitchen gadgets were used for!
